It has always been an open question in this country, how far the State should undertake to control the citizen, and a never-ending battle is liberty, and others who would have the laws we should drink, the schools and churches we should attend, the books we should read, the manner in which we should observe the Sabbath. all the relations of life. The wisest course is actions may be controlled; his opinions cannot be, even by himself. Some newspapers and public men in this country are now advocating compulsory education, and the strict system of Sweden and other European countries is cited, as a proof of the benefits to the community of educating all children with or without the consent of the parents. On the other hand, the American Law Register publishes, with an elaborate commendatory note by Judge Redfield, of Boston, the opinion of the Supreme Court of Illinois on the right of the Legislature to pass laws under which persons convicted of no crime may be restrained of their liberty, on pretense of reform or education. It declares the act of the Legislature creating a Reform School, and providing for the summary commitment to it of children who are "destitute of proper parental care, and growing up in mendicancy, ignorance, idleness, or vice," unconstitutional, as it precess of law. Also, that so far as it restrains liberty, for any cause except actual crime, it is in violation of the Bill of Rights, which declares that all men have certain inherent rights, among

The New York chamber of commerce is not in the white-washing business. That corporation was invited by Mayor Hall and Comptroller Connolly to inspect the books of the city and certify whether the enormous expenditures of its Tammany officials were honestly made; but, remembering the unsatisfactory result of a former examination by eminent citizens, the officers of the chamber declined the use of the bucket and brush so politely and unselfishly tendered. They regard the charges as too serious to be met by any such volunteer proceedings.

The chamber of commerce is right. Everybody knows the value of that sort of an investi-gation, undertaken by a party of distinguished citizens, who, generally, have neither the time nor inclination to dig to the bottom of things, and which usually consists of a few profound glances at footings of columns deftly prepared to suit the Washington NC 29.95 79 N.W. The British census report for 1861 gave a population of 28,927,485; that for 1871 shows 31,465,-480-a gain of 2,537,995. The United States report for 1860 gave 31,443,321; that for 1870, 38,447,500-a gain of 7,004,188. The gain of this country in population has, therefore, been 4.446,193 greater than that of Great Britain in notwithstanding our civil war, and it is probably greater than here set down, as the British census is a year later than our own, and if ours here, the aggregate would perhaps show a ten per cent. increase in the disparity, and in our favor. As it is, Great Britain has but 22,159 which date we have added 7,004,188, and are now 6,982,029 ahead of her. The population we have is greater than that of Austria or of France, as well as that of Great Britain, and is about that of the German Empire, exclusive of the prov-

Greeley's advice to "go west" applies with much force to the advocates of women's rights, for female suffrage and other concomitants of the doctrine of equality of the sexes, are making greater headway there than in the comparatively slow going east. THE STAR has already recorded the fact that woman suffrage is to be an accomplished fact in several of the territories this fall; but in Minnesota they seem to have advanced beyond equality, and the married women there are usurping a superiority heretofore accorded to their husbands, at least we infer so papers, which reads: "Persons who have contracted debts to B. BRIGNOLI, MRS. BRIGNOLI AND "THE Twins."-It is whispered in social circles at "the Hub" that Brigneli-who was privately married to Miss McCulloch, in Montreal, last July-has made an attempt to ignore his marriage or deny it, but he "reckoned without his host," or hostess rather, for Mrs. Brignoli proved equal to the situation, and so very plainly demonstrated to her other half the impossibility of a separation from her "and the twins," that after a few frantic efforts, he subsided, and learning a lesson from the past, will in the future keep in the usual tenor of his way.

THE FRIENDS of the "New Party" movement in Baltimore had a convention "ast night. After the selection of delegates and office." the reporters of the press were excluded from the hall, a committee was appointed to prepare a placform, and the body adjourned to meet on Mon-day evening next. Some of the friends of the movement disavow any intention on the part of its leaders of persecuting those who differ with them in religious matters. What do they want to shut out reporters for then?

CANAL TRANS.—The Cumberland (Md.) Daily News of yesterday says that recent rains west of mat region have somewhat swollen the water in the river at Cumberland, and within the past twenty-four hours there had been a rise of about afteen inches, which greatly facilitated boats entering the locks from the river. On Monday thirty-seven boats were loaded at that place, car-

rying a total of 4,013 tons of coal. To Be Hanged.—Governor Hoffman, of New York, positively refuses to commute the sen-tence of Joseph Messner, who is under sentence to be hanged on Friday next for the murder of his wife. Messner, therefore, will doubtless be executed on that day. The Governor seems to be in favor of a "little wholesome hanging."

The Wall street markets are all quiet, the sultriness of the weather, and the absence of leading operators from the street not encouraging speculation in any direction. Stocks are, as a rule, firm, gold and government bonds being strong, although there is rather a softer tone to foreign exchange, the leading bankers having lewered their rates.

WAR DEPARTMENT, Office Chief Signal Officer, Washington, D. C., August 9, 1871. The barometer has fallen decidedly since Tuesday morning at the Rocky Mountain stations. The area of high parometer, which was then advancing over the upper lakes and Illinois, is now central over Kentucky, and the barometer is now falling in Iowa and Minnesota. The area of low pressure which was Monday north of Lake Erie has moved rapidly east-ward, and is now beyond our stations. Northwest winds are now reported from New England to Ohio; senthwest winds on the south Atlantic coart light. winds are now reported from New England to Ohio; southwest winds on the south Atlantic coast; light winds and calms in the interior; and easterly winds from northern Illinois westward and northward. Light local rains have been reported from South Carolina to Maine and westward to Lake Ontario and the Ohio valley. Heavier rains have fallen in Southern Louisiana. Tennessee and Missouri.

PROBABILITIES.—The barometer will probably begin to rise in the Eastern and Middle States, with pleasant weather along the entire Atlantic and Gulf States. The pressure will probably diminish somewhat north and west of Lake Erie, with local storms from Iowa to Lake Superior. from Iowa to Lake Superior.

fabrics.

Not only does it save labor, fuel, clothes, &c., but by using it housekeepers get rid of the discomfort of hot water in summer, and of steam in the house during winter, which causes frequent colds, especially to those who go from a steaming hot wash-room to hang out clothes.

Thousands of testimonials to its great excellence are at hand; but no evidence can equal that derived from one's own observation and experience.

To know the virtues of this SOAP even beyond. from one's own observation and experience.

To know the virtues of this SOAP you have only to try it. A single bar is sufficient for the ordinary week's washing of a family of eight persons.

By its own action it dissolves the grease and other things that soil, and liberates them from the garment, thus quietly and quickly accomplishing that which is usually done with labor and hard usage of the clothes by means of a washboard or machine. Very little hand-rubbing is required with this soap, except when the clothes are much soiled, or the dirt firmly imbedded in the fabric.

The clothes require no blueing if dried in the sun, as they are bleached every time they are washed.

Olothes washed with this Soap will last fully twice as long as when washed in the ordinary way with the Soaps hitherto most popular.

To consumers, therefore, it is unquestionably the CHEAPEST Soap ever manufactured. The usual discount to the trade.

THE GREAT DISCOVERY. LETTER FROM GENERAL HOWARD. PROF. T. A. COOK:—Dear Sir: I have for some time used the BALM OF LIFE in my family as a wash, and have found it all you recommend. I am glad to join others in commending an article that is evidently doing so much good. Yours, truly.

WASHINGTON, D. C., June 24, 1371.

Dear sir: I have given your BALM OF LIFE for the hair a fair trial, and am much pleased with its effects. It is a healthful wash for both the scalp and hair; and its influence to sooth the nerves and revive the system when exhausted from over work is most delightful. I have not used it except as a wash, but on your recommendation, and from the faith its use, thus far, has secured from me, I should feel great confidence in taking it as a medicine, according to your directions.

Yery respectfully yours.

Prof. Cook.

ANDREW WYLIE.
